

THE MARS SOCIETY

"Simulating" Operations & Activities of Crews at a real Mars Outpost, will teach us to design both Base & Equipment for improved Safety, Ease of use, Productivity, Morale, & Success.

**Putting on a Spacesuit:
Crew members helping each other with the clumsy outfits**

Work Stations:
Crew practice
routine chores:
communications &
activity reports

Exploring: ATVs
prove useful
for situations that
Pressurized Rovers
can't handle well

Volunteer Crews:
It helps to have an
expertise that may be
needed on Mars.
